Section 4.8 Effect of Nonpayment of Assessments - Remedies of the Association: Any assessment not paid within thirty (30) days after the due date shall bear interest from the due date at the rate of ten percent (10%) per annum. The association may bring an action at law against the owner personally obligated to pay the same, or foreclose the lien against the property. Each such owner, by his acceptance of a deed to a lot, hereby expressly vests in the association, or its agents, the right and power to bring all actions against such owner personally for the collection of such charges as a debt and to enforce the aforesaid lien by all methods available for the enforcement of such liens, including judicial foreclosure by an action brought in the name of the association in a like manner as a mortgage or deed of trust lien on real property, and such owner hereby expressly grants to the association a power of sale in connection with the said lien. In the event of death or resignation of any member of said committee, the remaining members, shall have full authority to appoint a successor member or members who shall thereupon succeed to the powers and authorities of the member so replaced. All decisions of such committee shall be final and binding and there shall be no revision of any action of such committee except by procedure for injunctive relief when such action is patently arbitrary and capricious. Members of said committee shall not be liable to any persons subject to or possessing or claiming the benefits of these restrictive covenants for any damage or injury to property or for any other loss arising out of their acts hereunder; it being understood an aggrieved party's remedies shall be restricted to injunctive relief and no other. Powers and duties of the named committee and any designated representative or successor member shall, on January 1, 1985, pass to a committee of three owners of lots in all sections or units of the subdivision then existing, provided, however, that until such selection is made by said majority of lot owners, the persons constituting said committee on said date shall continue to exercise such powers and duties until such time as their successors are elected.

Section 6.8 Utility Easements: Easements for installation and maintenance of utilities and drainage facilities are served as shown on the recorded plat. Neither declarant nor any utility company using the easements herein referred to shall be liable for any damage done by them or their assigns, their agents, employees or servants, to shrubbery, trees or flowers or other property of the owners situated on the land covered by said easements.

Section 6.11 Domestic Quarters: No garage apartment for rental purposes shall be permitted on any residential lot. Living quarters on property other than in main building on any residential lot may be used for bona fide servants only.

Section 6.12 Underground Electrical Service: An underground electric distribution system will be installed in that part of Memorial Parkway Subdivision, Section Seven, designated herein as Underground Residential Subdivision, which underground service area embraces all of the lots which are platted in Memorial Parkway Subdivision, Section Seven, at the execution of this agreement between Company and Developer or thereafter. In the event that there are constructed within the Underground Residential Subdivision structures containing multiple dwelling units such as townhomes, duplexes or apartments, then the underground service area embraces all of the dwelling units involved. The owner of each lot containing a single dwelling unit, or in the case of a multiple dwelling unit structure, the Owner/Developer, shall, at his or its own cost, furnish, install, own and maintain (all in accordance with the requirements of local governing authorities and the National Electrical Code) the underground service cable and appurtenances from the point of electric company's metering at the structure to the point of attachment at such company's installed transformers or energized secondary junction boxes, such point of attachment to be made available by the electric company at a point designated by such company at the property line of each lot. The electric company furnishing service shall make the necessary connections at said point of attachment and at the meter. owned and installed service wires. In addition, the owner of each lot containing a single dwelling unit, or in the case of a multiple dwelling unit structure the Owner/Developer, shall at his or its own cost, furnish, install, own and maintain a meter loop (in accordance with the then current Standards and Specifications of the electric company furnishing service) for the location and installation of the meter of such electric company for each dwelling unit involved. For so long as underground service is maintained in the Underground Residential Subdivision, the electric service to each dwelling unit therein shall be underground, uniform in character and exclusively of the type known as single phase, 240/120 volt, three wire, 60 cycle, alternating current.

The electric company has installed the underground electric distribution system in the Underground Residential Subdivision at no cost to Developer (except for certain conduits, where applicable, and except as hereinafter provided) upon Developer's representation that the Underground Residential Subdivision is being developed for residential dwelling units, including homes, and if permitted by the restrictions applicable to such subdivision, townhouses, duplexes and apartment structures, all of which are designed to be permanently located where originally constructed (such category of dwelling units expressly to exclude mobile homes) which are built for sale or rent and all of which multiple dwelling unit structures are wired so as to provide for separate metering to each dwelling unit. Should the plans of the developer or the lot owners in the Underground Residential Subdivision be changed so as to permit the erection therein of one or more mobile homes, Company shall not be obligated to provide electric service to any such mobile home unless (a) Developer has paid to the Company an amount representing the excess in cost, for the entire Underground Residential Subdivision, of the underground distribution system over the cost of equivalent overhead facilities to serve such Subdivision or (b) the Owner of each affected lot, or the applicant for service to any mobile home, shall pay to the Company the sum of (1) \$1.75 per front lot foot, it having been

The provisions of the two preceding paragraphs also apply to any future residential development in Reserve(s), if any, shown on the plat of Memorial Parkway Subdivision, Section Seven, as such plat exists at the execution of the agreement for underground electric service between the electric company and Developer or thereafter. Specifically, but not by way of limitation, if a lot owner in a former Reserve undertakes some action which would have invoked the above per front lot foot payment if such action had been undertaken in the Underground Residential Subdivision, such owner or applicant for service shall pay the electric company \$1.75 per front lot foot, unless Developer has paid the electric company as above described. The provisions of the two preceding paragraphs do not apply to any future non-residential development in such Reserve(s).

Section 6.13 Signs: No sign of any kind shall be displayed to the public view on any lot except one sign of not more than five square feet advertising the property for sale or rent. During the initial construction and sales period the builder may use other signs and displays to advertise the merits of the property for sale or rent. Declarant or its assignee shall have the right to remove any such sign in contravention hereof and in so doing shall not be subject to any liability of trespass or other sort in connection therewith or arising with such removal.

Section 6.14 Height of Antennae: No radio or television aerial wires or antennae shall be maintained on any portion of any residential lot forward of the front building line of said lot. Permanent and semi-permanent storage of such items and vehicles must be screened from public view, either within the garage or behind the fence which encloses the rear of the lot.

Section 6.16 Sidewalks: Before the dwelling unit is completed, the lot owner shall construct a sidewalk four (4) feet in width parallel to the street curb, and shall extend to the projection of the lot boundary line(s) into the street right-of-way and/or street curbs at corner lots. Owners of corner lots shall install such a sidewalk parallel to the front lot line and the side street lines.
